

YOUR BLUEPRINT FOR HEALTHIER BRAIN FUNCTION

Advanced Brain Assessment With the eVox® System

Understanding and maintaining your brain function can help manage specific issues, such as:

Anxiety

Attention issues

Depressed mood

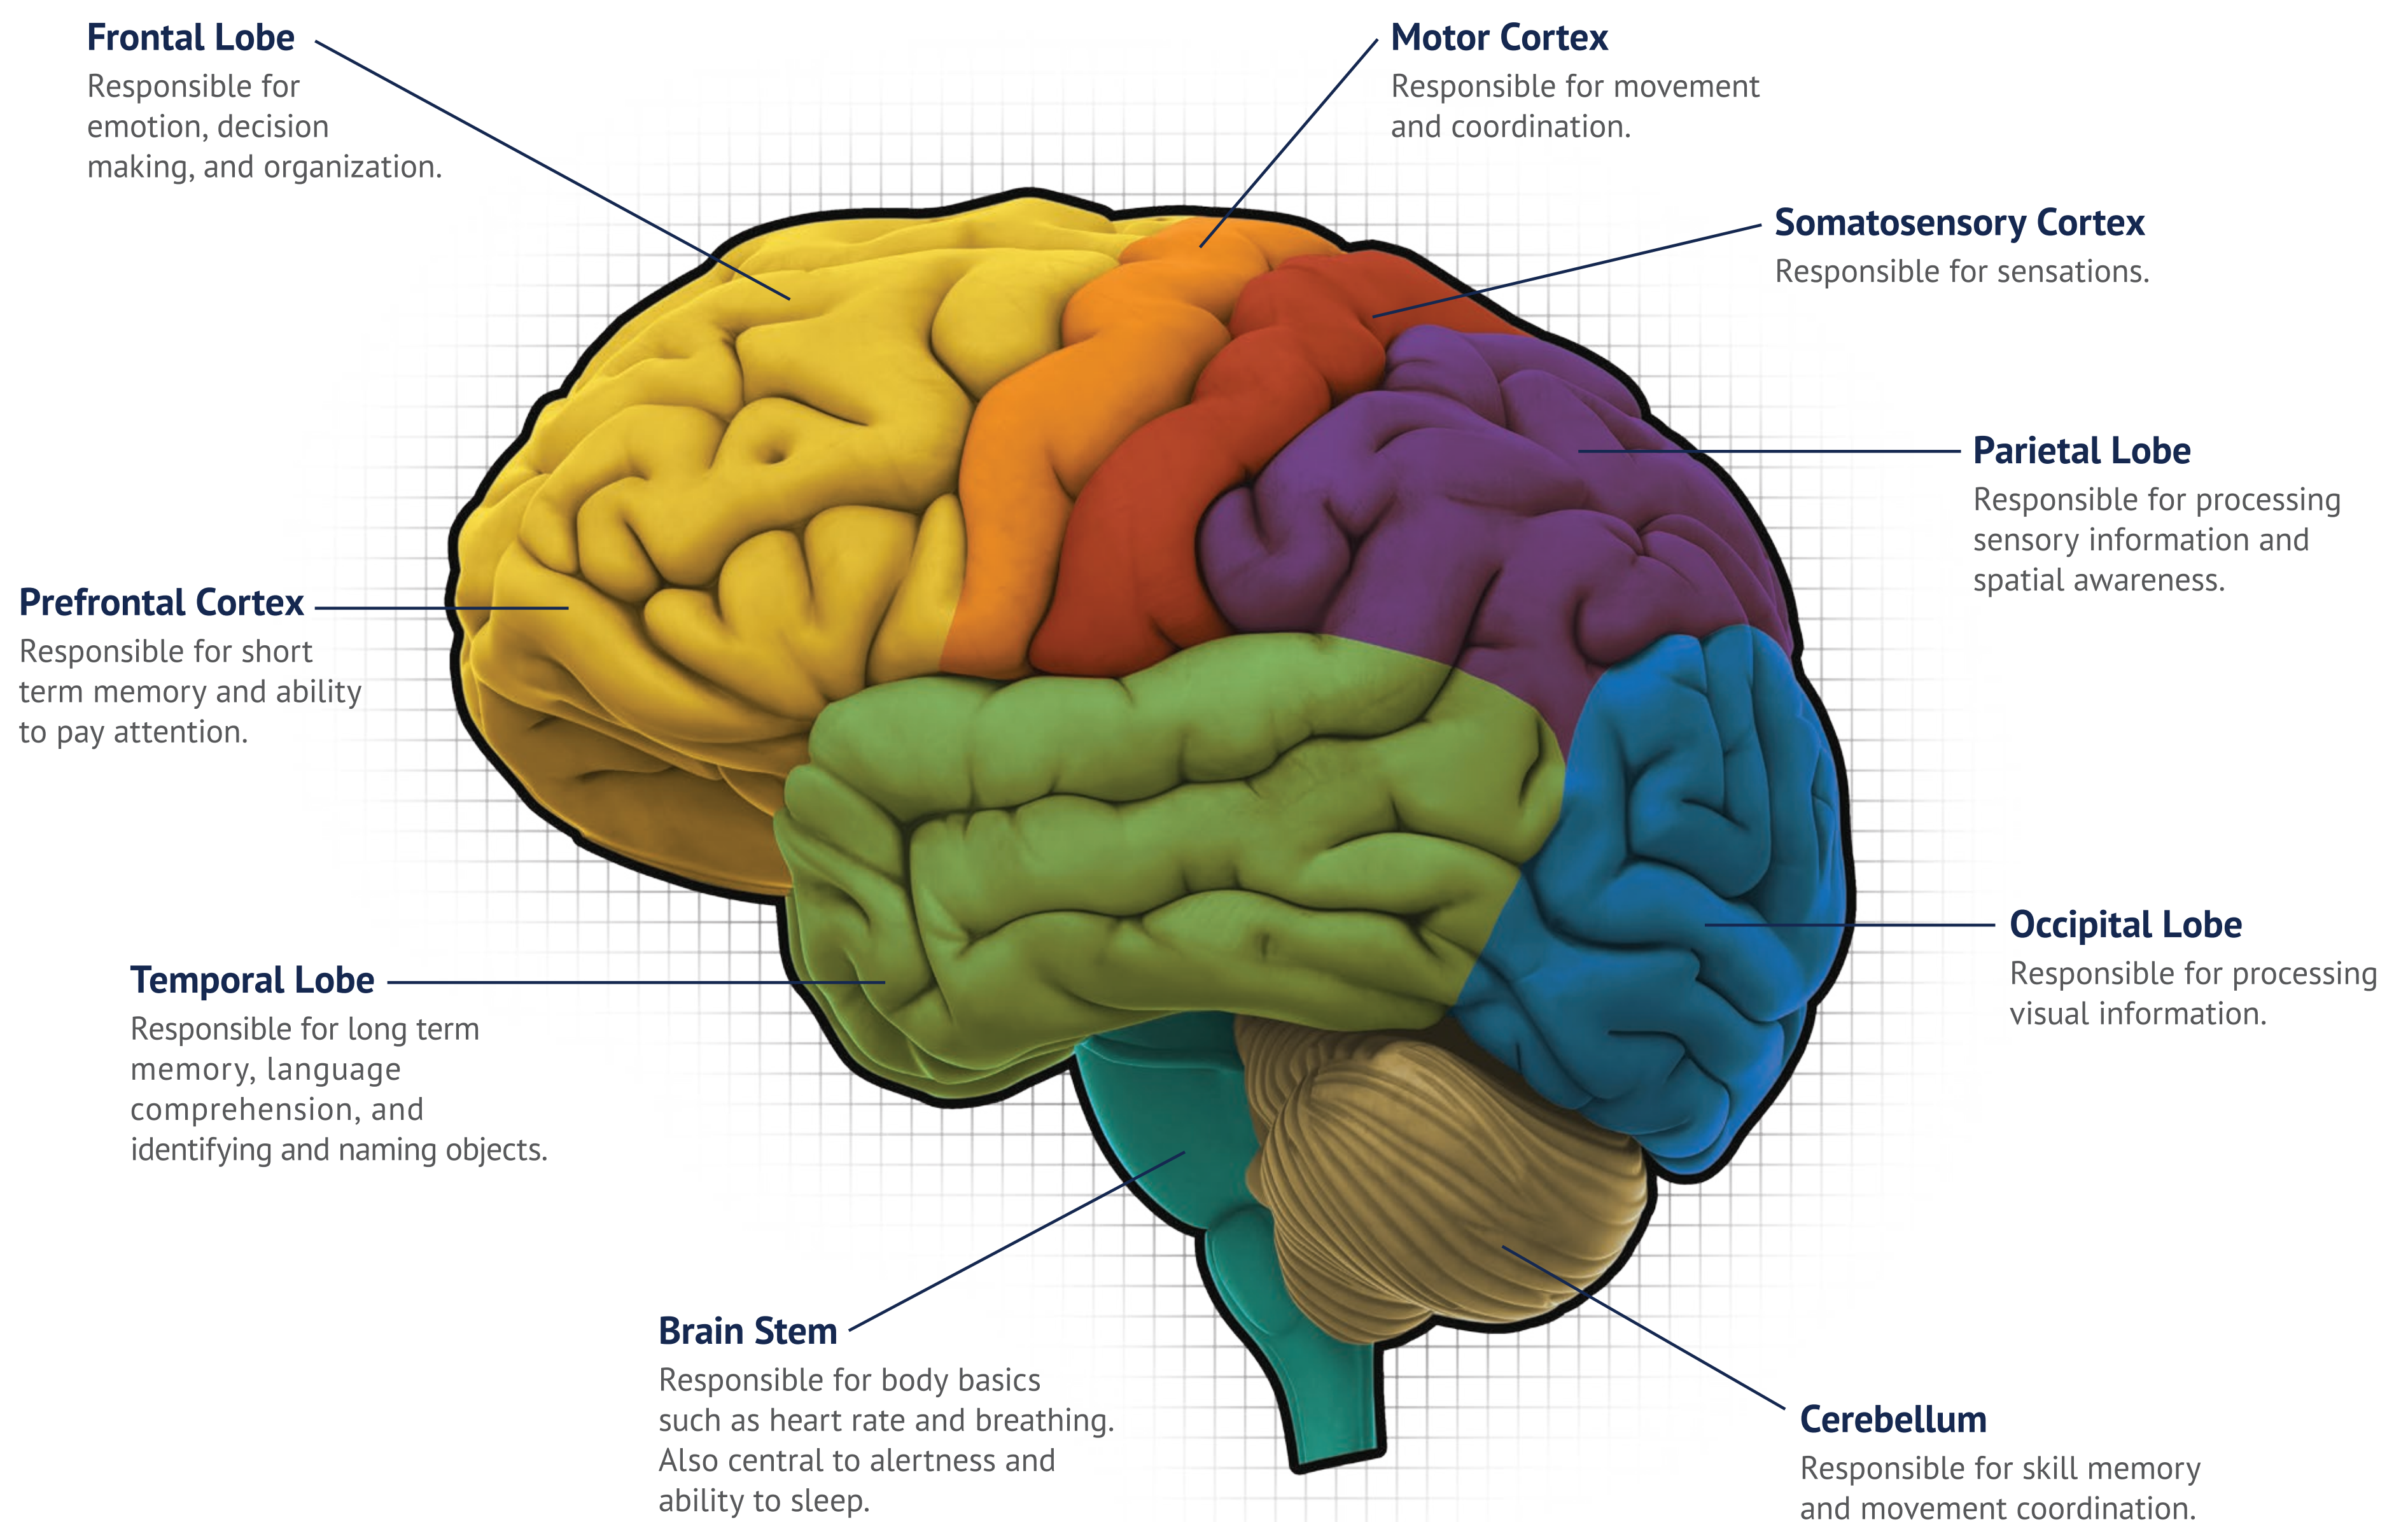

Forgetfulness

Head injury

Pain

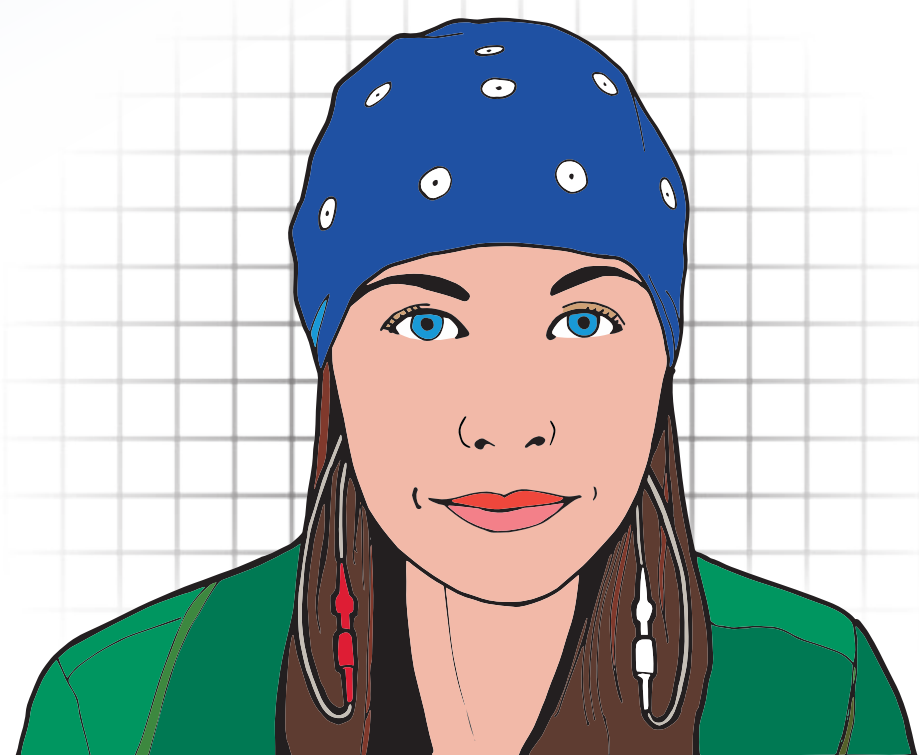

Sleep issues

Stress

Advanced brain assessment with the eVox system

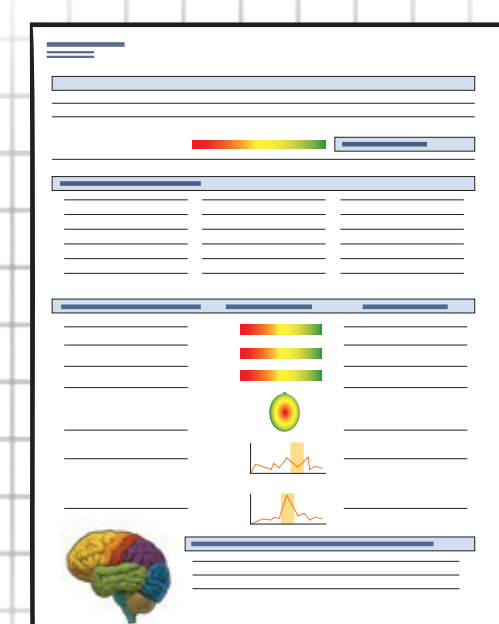

Designed to help create your personalized care plan

During the simple and painless test, you will wear an electroencephalography (EEG) cap, similar to a swim cap.

Your brainwave data is recorded during simple computer exercises.

Your eVox system report and brain map will help your physician develop a care plan that optimizes your brain function.
